5

Teamwork

- **Teamwork is the collaborative effort of a group to achieve a common goal or to complete a task in the most effective and efficient way. This concept is part of the idea of a team, which is a group of interdependent individuals who work together towards a common goal.**

6

Teamwork

- Teamwork is present in any context where a group of people are working together to achieve a common goal. These contexts include an industrial organization, athletics, a school, and the healthcare system. In each of these settings, the level of teamwork and interdependence can vary from low to high depending on the amount of communication, interaction, and collaboration present between team members.

7

Teamwork – Follow-up
