Wonders of the world

5

Wonders: mystery

- Of the original Seven Wonders, only one—the Great Pyramid of Giza, oldest of the ancient wonders—remains relatively intact. The Colossus of Rhodes, the Lighthouse of Alexandria, the Mausoleum at Halicarnassus, the Temple of Artemis and the Statue of Zeus were all destroyed. The location and ultimate fate of the Hanging Gardens are unknown, and there is speculation that they may not have existed at all.

6

Wonders: mystery

- The pyramid remained the tallest man-made structure in the world for over 3,800 years. Ancient Egyptians cut stone into rough blocks to build it. The Greeks believed that slave labor was used, but modern discoveries made at nearby workers' camps associated with construction at Giza suggest that it was built instead by thousands of conscript laborers.
